-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 9/7/06.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-21 is/are pending in the application.
- 4a) Of the above claim(s) 10-21 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The inconsistency between the language in the preamble “a connector insertion and removal tool” and certain portions of the body of the claim such as “circuit board, electrical connector, electrical system, pin aperture field, first and second surfaces, first and second portions of the circuit board” renders the scope of the claim vague and indefinite because it is unclear if the intent is to claim either the structure of the tool (the subcombination alone) or the combination. The applicant is asked to please clarify what subject matter the claim is intended to be drawn to the structure of the tool (the subcombination alone) or the combination, where the language of the claim is to be amended to be consistent with this intent. The reader assumes that the applicants intended to claim the structure of the tool (the subcombination alone).

Claim 3, line 1: what is “the includes a pin aperture field”?

Claims 2-9, line 1: amend “A tool” to –The tool--.

Claim 4, lines 1-2: it is unclear as whether “at least one guide pin” is part of the installation mechanism, extraction mechanism, a connector or a circuit board.

Election/Restrictions

Art Unit: 3729

3. Applicant's election without traverse of Group I in the reply filed on September 7, 2006 is acknowledged.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2 and 6-9, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by G. H. Sittner et al (US 2,829,371).

Sittner discloses an installation mechanism (Fig. 8b); an extraction mechanism (219 and 220 in Fig. 8e); an actuator (138) and a motor and linkages combination to move the actuator; a groove and rib combination (173 and three (3) gears adjacent thereto); 151 are guide pins for the installation mechanism; it is inherent that wires connected to a motor are all insulated and situated adjacent to the actuator; 131 is an alignment member; 12 and 10 are modular blocks held stationary; 142 is a movable block; 129 are positioning plates.

Note: since an installation mechanism and an actuator are elected as noted in claim 1, claims 3-5 are withdrawn from further consideration since they are drawn to an extraction mechanism and an actuator.

Response to Arguments

6. Applicant's arguments with respect to claims as noted above have been considered but are moot in view of the new ground(s) of rejection.

Interviews After Final

7. Applicant note that an interview after a final rejection must be submitted briefly in writing the intended purpose and content of the interview (the agenda of the interview must be in writing). Upon review of the agenda, the Examiner may grant the interview if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.

Conclusion

8. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3729

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (571) 272-4564. The examiner can normally be reached on 5:30 AM to 1:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David P. Bryant can be reached on (571) 272-4526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
